

G12H-75 Creamback

Back in the late 60s, the G12H was created by fixing an 'H' type (heavy) magnet to the body of a G12M guitar speaker. Result: a speaker with more power and a different tonal balance: firmer bass and a more pronounced top end. So we added an 'H' magnet to the G12M-65 Creamback, create a speaker that delivers the sonic signature of a G12H combined with Creamback levels of power handling. The result is the G12H-75 Creamback. It delivers 75-watts of power handling with ease and has unmistakable G12H tone, with a tighter low end than the G12M-65 Creamback and a punchier, more dynamic high end. The H magnet brings additional focus, body and girth to the Creamback tone. It thickens single notes, resulting in a highly articulate, vocal character. These additional characteristics mean that the G12H-75 Creamback offers exceptional performance when used for lead guitar and sounds massive loaded into a 4x12 cab!

8 Ω Frequency Response**General Specifications**

| | |
|----------------------------|-----------------------|
| Nominal diameter | 12", 305mm |
| Power rating | 75W |
| Nominal impedance | Available 8 Ω or 16 Ω |
| Sensitivity | 100dB |
| Chassis type | Pressed steel |
| Voice coil diameter | 1.75", 44.5mm |
| Magnet type | Ceramic |
| Magnet weight | 50oz, 1.42kg |
| Frequency range | 70-5000Hz |
| Resonance frequency, Fs | 75Hz |
| DC resistance, Re | 6.37 Ω and 12.5 Ω |
| Voice coil former material | Round copper |

Mounting Information

| | |
|---------------------------|----------------|
| Cut-out diameter | 11.1", 283mm |
| Diameter | 12.2", 309mm |
| Magnet structure diameter | 6.6", 168mm |
| Mounting slot dimensions | 0.31", 7.9mm Ø |
| Mounting slot PCD | 11.7", 297mm |
| Number of mounting slots | 8 |
| Overall depth | 5.4", 138mm |
| Unit weight | 10.4lb, 4.7kg |
